

DAILY NEVADA STATE JOURNAL

VOL. LVI.

RENO, NEVADA, WEDNESDAY MORNING, AUGUST 7, 1924

NO. 6

IN MINING CIRCLES

Doings of Nearby Camps.

ABOUT PROSPECTOR AND CLAIM OWNER

Considerable Activity Prevailing in the Hills That Surround This City.

The Ritter Iron mine will be reopened as soon as the smelter resumes operations. The deal for the works is practically closed.

Henry Ritter has sent two men out to Peavine to develop one of his claims.

Edward Kane returned from Sierra county, where he went on a prospecting trip. He found a ledge carrying gold, silver and copper. It is about 25 feet between walls. An assay yielded \$40.49. The claim is named Anasconda, No. 2. Several more men were put to work yesterday on the Nelson & Williams incline.

The owners of the Copper Queen have been developing their mine since the expiration of the bond. This is the nearest copper mine to Reno.

The Journal is informed that a deal is on for a group of valuable mining properties in Olinghouse Gulch. The transaction is expected to come to a head within the next few days.

The tunnel in the U. M. Sater Company's ground is now in about 400 feet. It will be run 600 feet further. The tunnel will cut the formations in two claims and will reach a depth of about 500 feet.

The properties at Cold Springs erstwhile leased New Jerusalem, are being explored by a California Company that has placed a bond on them.

Very little is doing on Granite Hill, but a group of claims there was recently bonded for \$40,000 and work on them is expected to begin soon.

Nothing further has been heard about the alleged strike of free gold on the Gullwing ranch. The Journal would be very sorry to learn that it was a "Steamboat."

L. F. Stallings is down 120 feet in the Reno Chance claim.

The Steamboat shaft is said to have gone through the creek wash and struck solid formation. The company expects to tap the ore body within the next twenty feet.

OF INTEREST TO EVERY ONE

Watches of all descriptions repaired by one of the best watchmakers on the coast all work guaranteed and prices reasonable. When your watch needs repairing go to Golden's jewelry store.

The Monarch saloon carries the only eastern beer sold in Reno. Bryson & Cohn are sole agents for the famous Anheuser-Busch beer, the best and purest that can be obtained.

Kodaks! Kodaks!!

TAKE one on your vacation trip and keep a souvenir of your summer pleasure.

90 cts. to \$60

FILMS and PLATES. A full line of photographic goods of all descriptions. Albums, mounts, etc.

CARR DRUG COMPANY,

Leading Druggists.

CORNER 2d & VIRGINIA STS.

ALL AROUND THE STATE

A Few Gleaned Paragraphs of Nevada News.

A haymaker, named Ford, was accidentally shot at Stauffer's upper ranch yesterday afternoon. A companion was handling a pistol carelessly and discharged the weapon by accident. The ball passed through the fleshy part of Ford's right foot.

John Ross and Philo Knapp were tried by a jury of Virginia City last week on a charge of abducting Peter Molloy with intent to do great bodily harm. Ross was found guilty of simple assault, while in Knapp's case a verdict of not guilty was rendered.

While coming from Tovarora yesterday with his big freight team, Geo. Grant was caught in a cloudburst about a mile north of Welland's. His team had just struck a deep ravine when the clouds opened and the water came down in torrents. In an hour the bed of the wagon and swam two horses out of their feet. Elko Independent.

Will Open a Hotel.

The Depot Hotel, in Verdi, recently leased by Messrs. Brower & Unalake of this city, will shortly be opened as a first-class hotel. Furniture has been purchased and is on the road. The bar was opened a week or two ago.

Reno Star Mine Has a Future.

Notwithstanding that practically no effort is being made to extract ore at the Reno Star mine, the work now done being mainly to block out ore bodies and explore the ground, there is considerable second grade ore piling up in the ore house and on the dump.

The first grade ore is being shipped as rapidly as it accumulates. It is believed that a plant will be put in to work the ore on the ground. There is said to be several hundred thousands of dollars in sight in the property, and unlimited possibilities with depth.

Very little can be learned about the mine from conversations with either Mr. Sparks or Mr. Crane. There is no stock for sale. This may account for their reticence. It was learned to an absolute certainty, however, that a recent carload netted over \$4000.

Dr. Stubbs May Go to London.

At the meeting of the Board of University Regents Saturday, President Stubbs will ask their wishes as to his attending the Ecumenical Conference of the Methodist Church, which will be in session in London from September 4th to September 17th.

Dr. Stubbs is one of the five delegates chosen from the western portion of the United States and the appointment carries with it considerable honors. The conference is one of all branches of Methodism. In numbers this organization stands next to the Roman Catholic Church. The Doctor is crowding his work in order to be in readiness to go if it is the wish of the Regents.

Late Stock Movements.

Seven cars of stock cattle were shipped yesterday from Parry's Corral to Phil Duffy at Fresno.

Roy Coyle has four cars of beef cattle that will be shipped to Woodland today.

Twenty-five head of Long Valley cattle were driven in yesterday and delivered to local dealers.

SPECIAL THIS WEEK.

Alarm clocks, guaranteed for one year for 35 cents at Frank Golden's jewelry store, corner Second and Virginia streets.

TERSE AND TO THE POINT

Little Bits of Items, but Still Worthy of Mention.

Gilbert Ross, well-known in this city, has been elected principal of the Virginia City schools.

The usually clear, placid Truckee was rather turbulent and opaque yesterday by way of variety.

Mrs. Minnie Puck and P. H. Manderson have each begun divorce proceedings in the District Court.

The telephone line to Wadsworth is already built through the canyon. It will be completed in two weeks.

Next Thursday evening a Court of Foresters will be instituted at Gardnerville. A number of the Reno brethren will be present.

No trains yesterday from the east or west. A big washout at Iceland and another near Browns caused the tie-up. The westbound mail will be 17 hours late.

The interior of the Arcade Hotel has been remodeled and greatly improved in appearance. This hotel is now one of the neatest and most comfortable hostleries in the city.

Track in Good Shape.

The track at the fair grounds was reported to be badly cut up by the rain, but what looked at first like a misfortune is really a blessing.

It is true that nearly fifty dollars' damages were done, but the track was immediately benefited by being packed hard. In a day or two it will be faster than ever.

Four Heads in Two Nooses.

George A. Sparks and Miss Kittle McCallum of Colusa were married in this city yesterday. The groom is a relative of John Sparks, the cattle king.

Frank A. Bequith and Bertie Lambert of Vacaville took the oath of allegiance to each other yesterday.

Wobb Was Bound Over.

Harry Webb's preliminary hearing was concluded in the Justice Court yesterday. He was bound over to await action by the Grand Jury. The defendant is charged with giving whisky to an Indian.

A Camping Party.

Dr. Coffin, Sam Armanka, C. R. McBryde, Charles Richardson and Will Maxwell leave today for Lost Chance and Webber Lake on a camping trip. They expect to be gone two weeks.

DRIFTING BACK TO HOME AND FRIENDS

One by one the stragglers are returning. The town is rapidly filling up. The campers were driven out of the mountains by the recent storm and the advent of cooler weather will soon bring back the Renoites who are rusticated by the sea and waves. The miners, lumbermen and ranch hands are beginning to float in. They have money to spend. Gambling games are running full blast and the sound of piano and violin is wafted out from behind many a saloon door. Indications are that this autumn will be one of the busiest and most prosperous that Reno has ever experienced.

Big Reward Offered.

Phil Jacobs advertises a watch lost in another column. Mr. Jacobs will pay \$50 reward for the return of the watch and absolutely no questions asked. This is a greater sum than the intrinsic value of the timepiece, but it is offered as a gift.

A Card of Thanks.

It is through the medium of this paper we wish to tender our heartfelt thanks to the many friends and kind neighbors who so untiringly assisted us in our late bereavement.

MR. AND MRS. R. L. JONES.
MR. AND MRS. J. S. ROWE.

NEWS OF THE DAY

Telegraphed from All Quarters.

GOT HEAPS OF SWAG

Half Ton of Gold Stolen—Kitchener's Successor—Slips Outlook.

San Francisco, Aug. 6.—Up to midnight the detectives, so far as could be learned, had not one clue to identify the men who robbed the Selby works. The officials of the company now estimate the loss at \$250,000.

The robbery was one of the biggest hauls that the history of criminology records. It was also one of the best planned and executed "jobs" ever perpetrated. The thieves tunneled from the water edge through the slag embankment to a point under the bullion room, which they entered and removed all the ingots of gold on hand, nearly half a ton. The bars of silver were not disturbed.

More Men Called Out. Special to the Journal.]

Pittsburg, Aug. 6.—A general strike order was sent out tonight to all lodges of the Amalgamated association, calling out all members on August 10th. This will add 12,000 to the number of strikers and render 100,000 more men idle.

Southern Pacific Tied Up. Special to the Journal.]

SALT LAKE, Aug. 6.—A washout near Vivian, and a landslide at Avenal on the Central Pacific, has caused a complete tie-up between Ogden and Elko, Nev.

Kitchener "Needs Rest." Special to the Journal.]

LONDON, Aug. 6.—General Lyttelton will return to South Africa with Lord Milner, and it is stated he will soon relieve Kitchener, who it is said "needs rest."

Strike Leaders Bounced. Special to the Journal.]

TAMPA, Fla., Aug. 6.—A citizens' committee today took a hand in the strike, and gathering up the strike leaders and shipped them out of town.

The Daily Co. Is Coming.

The Dailies are coming. This highly successful newspaper provider has become a household word among the patrons of the coast where they have appeared continuously for the past eight years. At popular prices they have established a high standard of excellence and their appearance each season is looked forward to with pleasure.

The present season's company is headed by Frank Readick, the well-known and popular dramatic actor. He has starred over the coast before, but at advanced prices.

Manager Dailies has selected an exceptional list of popular successes for presentation this year embracing as they do such high class plays as "The Defaulter," "Mother and Son," "A Day in New York," "A Noble Outcast," "Coming thro' the Rye," "A Gold Mine," and "Kathleen Maybourne." Theatre patrons may look forward to a week of pleasure.

Your Chance!

Wanted—Twenty-five men to assist in the capture of one John Craddock, a defaulter. For particulars apply at ROSENTHAL & ARMANKO.

WILL YOUR HUSBAND BE SATISFIED?

I guess yes—when you can save money for him.

Men's \$1 undershirts at 50 cents. Men's \$1.25 overalls at 50 cents. Out 14 1-2.

Silks, satins, worsteds, table linens, towels, napkins, ladies ready made goods, in fact, everything at half price.

Great Assignee Sale, adjoining Nevada Bank.

M. E. MAYER, Assignee.

Full course in shorthand. Individual instruction at home, including typewriting, \$60. Address Journal office.

SOCIAL AND PERSONAL

Items About People Who Travel to and Fro.

Frank Kuchowits blew into town yesterday.

John Wolf of Dilley, Texas, is a guest at the Palace.

Robert Grimmon was over from Carson yesterday.

Miss Carrie Hick of Bode is visiting friends in Reno.

Ex-Governor Adams was down from Carson yesterday.

H. W. Watkins was down from Carson yesterday.

Mrs. A. T. Kramer of Truckee is visiting friends in Reno.

U. S. Marshal Emmett was down from Carson yesterday.

J. M. Davis and C. L. Baidner are down from the Coast.

Harry Lewis, the Loyalton lumberman, was in town yesterday.

Mrs. Chas. Roberts of Clairville is visiting friends in this city.

J. F. Littlefield, a San Francisco mine expert, is spending a few days in Reno.

Edward B. Mawry, representing the Daily Stock Co., was a visitor to Reno yesterday.

Miss Pearl Laughton returned from a two months' visit to San Francisco yesterday morning.

C. B. Bell, one of the owners of the Bell mine, is expected back in Reno Thursday or Friday.

John B. Chad, representing the Selby Lead and Smelting Company, is a guest at the Riverside.

Governor Badler spent yesterday in this city. He will go on to Elko to look after mining interests.

G. H. Chamberlain of Loops is spending a few days in this city. He is interested in the Boulder mine.

B. C. Smith, of New York, a brother of H. J. Smith, of Buffalo Meadows, has returned to his home after an extended visit in this vicinity.

A. J. Taylor leaves this morning for Loyalton, Cal., to take the position of engineer at the Horton Lumber Company's works at that place.

Mrs. Brown of Chicago is visiting her son, Superintendent Brown of the University. She has just returned from California where she visited relatives.

Scott Reynolds, night clerk at the Palace, leaves today for Chicago on a short business trip. Although Mr. Reynolds has been a resident of Reno only a few months, he has made many friends here.

CAPITALISTS COME TO INSPECT A MINE

A party consisting of eight capitalists is expected to arrive from New York the latter part of the week. They are the principal stockholders in the Empire Mining Company, which recently purchased the famous old Pyramid mines. They come to inspect the property and to arrange for the smelting of the ores either on the ground or in Reno. The company has an option on the works of the Reno Smelting and Milling Company. An increased force will be probably put on at the mine next week by Superintendent Parry. It is estimated that \$10,000 will put the mine in position to extract ore economically.

Leave for California.

H. W. Nelson, superintendent of the Goleta mine near Jordan, Cal., leaves today for Paso Robles and Yosemite. He will be accompanied by Mrs. Nelson, who arrived yesterday from Tuscarora, where she had been visiting relatives.

Ladies Take Outing.

Mrs. R. W. Parry and daughter, Gladys, Mrs. Dr. Lewis, Mrs. Jno. Michaels and daughter, Hepburn, Mrs. Will Gould, Mrs. T. K. Stewart and Unruh are spending a few days at the Truckee River Country Club.

Found not Guilty.

J. B. Hall, the merchant of Mountain City, Elko county, who was tried before the United States Court on the charge of selling whisky to Indians, was acquitted. This case attracted considerable attention as the defendant was a man of wealth and influence in his section of the State.

MINING IN THIS STATE

Culled News of Nevada's Most Important Industry.

A company with \$250,000 has been organized to buy and operate the mines at Flocks and as the deepest mine in the camp is only 1500 feet and \$200,000,400 has been produced that town will soon be a big bullion producer.

Work has already been started at several points and within a year it is estimated from 1000 to 1000 men will be employed.

A. Olden, a mining expert of Mexico, who has been at Tyng for some time examining the mines at that place in the interest of Eastern people about to take bond on the property, arrived in Elko last Saturday, and in company with Bert L. Smith, made a trip to Mount Hope Sunday. While at Tyng he selected about fifteen tons of ore to be forwarded to Kansas City for the purpose of making careful analyses and tests.—Elko Sentinel.

The Con. Virginia paid \$4000 bullion tax to Storey county for the last quarter. This is a reminder of old times. The nitre beds at Lovelock are turning out very rich. They show ore that assays from \$6 to \$12 per ton in gold besides being very rich in nitre. The company is putting up extensive works for the reduction of ore. Lovelock has a very bright future.

Registration of Temperature.

The chief topic of conversation the past week was the heat. An examination of the tracings of the self-registering thermometer at the University revealed a view of a wavy outline, revealing the outline of a distant range of mountains.

At 8 o'clock on Monday morning of last week the mercury stood at 72 degrees, a maximum of 86 was reached at 2:30. Tuesday's minimum was 59 and maximum 88. The ranges for the other days were: Wednesday, 61 to 88; Thursday, 62 to 85; Friday, 64 to 90; Saturday, 68 to 85; Sunday, 68 to 88. Monday's minimum was 60.

The lowest temperature observed from 5 to 5 p. m. The highest markings were made between noon and 3.

During the entire week the barometer remained nearly stationary.

Electric Power Nearly at Hand.

It is given out on reliable authority that the electric power plant will be completed within two months. Preparations are being made to begin work on the street railway this fall, although it will probably not be completed this year. It is the intention to build it from the Lake Mansion to the University and extend it on to the race track and to Wedekind City. A line may also be run to Laughton's.

At three mines, at least, in this vicinity, electric hoists are to be installed. The power will be put in at the N-C-O. car shops and probably several manufacturing institutions in this city.

The Men Were Paid Off.

It was rumored on the streets that the men employed in the Bell mine did not receive their last month's wages. Superintendent Kane informs the Journal that this is a mistake. The miners were paid in full. The superintendent has two men employed as watchmen. They are also doing surface work on the mine.

Found not Guilty.

J. B. Hall, the merchant of Mountain City, Elko county, who was tried before the United States Court on the charge of selling whisky to Indians, was acquitted. This case attracted considerable attention as the defendant was a man of wealth and influence in his section of the State.

COUNTY FATHERS

Meeting of Commissioners.

TRANSACTIONS OF THE TOWN BOARD

Fire Marshal Matter Laid Over—Two More of the Fire Department's Bonds Were Sold.

The Board of County Commissioners has completed its business and taken an adjournment until August 20th. County bills were passed upon.

E. L. Drappo was authorized to deliver 75 cords of wood at the County Hospital for \$4.50 per cord.

Five dollars relief was granted to each of four indigents.

Reports of certain officers were received and filed.

It was ordered that the clerk advertise for bids for doing the county printing for the remainder of the year, beginning September 8th.

J. F. Aitken was awarded \$30 a month for sprinkling streets.

TOWN BUSINESS.

The commissioners in their capacity of a Town Board transacted the following business:

J. F. Aitken was allowed \$20 per month for street sprinkling.

The town bills were passed upon. The petition of citizens of the town of Reno asking the Board to create the office of Fire Marshal and appoint H. J. Thyes, was submitted to the Board.

R. E. Doolan appeared in behalf of the petition. The matter was laid over.

On motion of Mr. Hymers an order was made that two of the bonds of \$1000, each issued for the support of the fire department, be sold to W. O. H. Martin at par value.

The sum of \$1000 was ordered transferred from the fire department fund to the general town fund.

District Attorney Pike was directed to communicate with the Southern Pacific Railroad Company with reference to paying Commercial Row. An adjournment was had until August 20th.

PRIDE RUINS MANY EYES.

Why do so many complaints of their eyes, simply because they need glasses? In many cases pride keeps one from wearing them. Let pride go and save your eyes by going to Golden's jewelry store where you will find the only graduate optician in the State.

A CHANCE FOR YOU.

Yes, you—make 50 cents on every dollar you buy.

\$12 and \$15 rugs at \$4.25 and \$5, only 10 left.

25-cent bed ticking at 12 1-2 cents. Best silk thread at 5 cents. Ladies 25-cent hose at 15 cents. Great Assignee Sale, adjoining Nevada Bank.

DEPENDENT UPON CONDITIONS.

MR. BRYAN says of the silver issue: "No man can say how important a part the money question will play in the next campaign. That will depend on conditions. But various phases of the money question are constantly presenting themselves, and the Democratic party ought not to recede from its position on this question, although other questions may be of more importance for the time being."

Mr. Bryan is right. The importance, or rather the prominence of the silver question will depend entirely upon the conditions at that time. He is also correct in his declaration that the Democratic party will never recede from the position taken in the Chicago and Kansas City platforms, which, in fact, is the position occupied by a large majority of the party since the demonetization of silver in 1873. But there are right times and wrong times in which to exploit even a principle conceded to be right. No one will deny that "tariff for revenue only" is a cardinal principle of the Democratic party, and yet there have been hundreds of Democratic State conventions held in which there was no allusion to that subject, for the reason that other issues at the time, if not of greater importance, were commanding more general attention, and no good and much harm might be done to the then prominent issues by the introduction of a subject which was not repudiated but for the time permitted to remain in abeyance awaiting more favorable conditions to push it to the front. Even a number of Democratic national conventions within the last half century have for the same reason laid no stress upon the tariff question, but that by no means indicated the repudiation of the principle, as was abundantly proven by the declarations of subsequent conventions.

While it is admitted that there are men in the Democratic party who do not agree with the majority upon the financial question, it was the same in regard to the tariff issue, but the minority never caused the main body to swerve from a straightforward course, while the dissenters upon that single question were held in line and their services utilized in promoting other principles of the party of perhaps equal importance. The late Sam Randall was not in harmony with his party upon the matter of tariff revenue, and yet he was an ardent and brilliant advocate of all of its other tenets and principles, and his general course and splendid ability so inspired the confidence of his Democratic associates that they several times elected him to the speakership of the House of Representatives. And who will say that either principle or policy dictated his banishment from the party, or that the principles of Democracy would have been better sustained if his seat in the House had been occupied by a Republican who was opposed to every principle excepting one that was advocated by the Democratic member? It is true that Mr. Randall, unlike some of the gold standard Democrats, never permitted his dissent upon the one question to effect his loyalty to the main body of the Democratic faith. But there were thousands of other Democrats who disagreed with the majority upon the financial issue, but for the sake of the others most vigorously supported the national tickets in 1896 and 1900, and they certainly are entitled to such consideration as their loyalty merits.

It will be three years before another presidential contest. In that time all of the present conditions may change, and no one can predict what the most prominent issues will be. Mr. Newlands is reported to have said, "Perhaps next time the demand for silver coinage will come from the other side of the water," which remark was prompted by the fact that Europe is beginning to feel the diminution of the flow of gold to her mints, caused by the war in South Africa. If the election was to come off this fall, unquestionably imperialism, trusts, militarism and tariff would comprise the main issues, and silver would not occupy a conspicuous place in either of the national platforms. But in three years there may be many changes. One thing may be regarded as certain: The Democratic party will never repudiate bimetallism, but will always hold itself in readiness to bring it to the front whenever the conditions indicate a reasonable prospect for success.

PASSION FOR "CHANCE."

THIS, August 7th, is the day designated for the opening for the Oklahoma homestead drawing. The great rush of people to register for a chance to participate in the drawing, demonstrates the propensity of mankind to try their luck, or to speculate in a harmless and innocent manner. There is no other logical explanation of the flocking of thousands of people to the designated land offices to register their names to participate in the lottery for choice that the government authorities have designated shall be held. While the land thus thrown open is naturally fertile and virtually virgin, it is not more so than millions of acres whose improvement has been begun and title to as much of which as a person could economically utilize could be proved for a relatively small compensation. Even the

present conditions of Nevada, with its limited facilities for irrigation, offers better inducements, equal in quality of land, and immeasurably superior in climate for persons seeking for homes in which to spend the remainder of their lives. But in these times of prosperity when the demand for labor has been and is exceptionally good and there is no particular need for able bodied persons to go out of the ordinary channels of industry to obtain a livelihood, more than a hundred thousand people have made their way to the registration offices, some of them travelling many hundreds of miles, bearing the expense and enduring unaccustomed privations. More than enough registered the first few days to take up all of the land open for occupancy and that number has been duplicated several times since, and a few days ago a long line was still in waiting and which was steadily being augmented to secure the opportunity for "taking a chance." In the excitement, crush and privations attending, there have been many deaths and infectious diseases developed, because of the unsanitary conditions which have necessarily arisen under the circumstances. The reservation when opened and the lots secured will be without those modern conveniences such as transportation routes and the facilities for doing business such as civilized communities must have to meet competition and tolerable comfort, which conditions must be awaited. In other States, and especially in Nevada, railroad and government land are to be had at original prices, but these must be paid for at stipulated rates though exceedingly low. But in these there are none of the elements of chance, and hence the preference. It is the novelty, and nothing else, that has created the rush. The experience of the overwhelming majority of those who have heretofore sought reservation lands at similar openings has not been of a character to warrant such eagerness and risk; they have not won prosperity, even the most fortunate, but it is presumably reasoned that "luck was subsequently against them. And so there is no hold-up in the rush for "choice."

MR. BRYAN had no difficulty in recognizing Hanna's hand in that alleged Democratic bolt in Ohio.—Silver State.

Which shows that the great commoner's discernment is more acute than that of some of his Democratic and Silver party admirers in Nevada. Somebody once said, "Save me from my friends," and if anyone ever had cause to echo the words it is Mr. Bryan, who is afflicted with an extraordinary number of injudicious friends.

JUDGE TAFT has decided that in taking the oath of office, the judges in the Philippines will not formally pledge themselves to heed the constitution of the United States, but they will find themselves in trouble with the appointing power if they do not do so, unless otherwise explicitly ordered. They will probably understand.

THERE was a bolt from the bolters' convention held at Columbus, Ohio, last week. One of the delegates got up and scooted because he couldn't stand the word "Democratic" in the resolutions.

PRESS COMMENT.

Now that Kansas has learned the efficacy of prayer it might be a good idea for them to continue to cultivate the praying habit instead of making it an emergency ration.—Salt Lake Herald.

The steel trust should treat with the striking steel workers. It might result in ending a drought that threatens to dry up all the water in steel trust stock.

UNIVERSITY OF NEVADA

A Well
Equipped
Institution
of
Learning

In
Which
Sagebrush
State
Takes
Pride

By President J. E. Stubbs.

VACATION is drawing to a close. The fall semester of the University will begin Tuesday, August 27th. Examinations for admittance will be held August 27th and 28th. Matriculation of new students, 27th to 29th; registration of old students, 29th to 31st. Recitations in all departments will begin Monday, September 2d.

The University will open with a faculty complete in every department.

Professor James E. Church returns after three years' absence, enriched in scholarship, to resume charge of the Department of Latin. Professor Church received the degree of Doctor of Philosophy

California. This is an original investigation, which is expected to bring valuable results.

Professor Frandsen is making special study in the Division of Biology in the Department of Agriculture at Washington, D. C.

Professor Young has spent the summer in study of the various mining and metallurgical plants in Utah, Colorado and California.

Miss Weir, acting assistant professor of history, has been doing work in the summer school at Berkeley and will engage in high school work in California.

Mr. J. Henry Dye, who did such excellent work

LINCOLN HALL.

from the University of Munich last April. Since that date he has been studying and traveling in Italy and Greece.

All the professors and instructors have put in the summer in study and research for their several departments.

Professor Thurtell has been at the head of a surveying party of students in Humboldt county.

Professor Emery is seeking health in Southern California.

Professor Lewers put in most of the summer in his office, while Professors McDowell and Wilson have been kept busy at the Experimental Farm and in the laboratory.

Professor De Laguna spent the summer in travel.

Professor Martin returns to the Chair of History after two years spent in study at Leipzig and at Columbia College.

Professor Blessing and Mr. Darling are visiting the leading technical schools and manufacturing plants in Ohio, Pennsylvania and New York. Prof. Blessing is regarded as one of the finest draughtsmen among all the mechanical engineers of the country.

Dr. Cushman has been investigating subjects connected with his department in the library at Harvard.

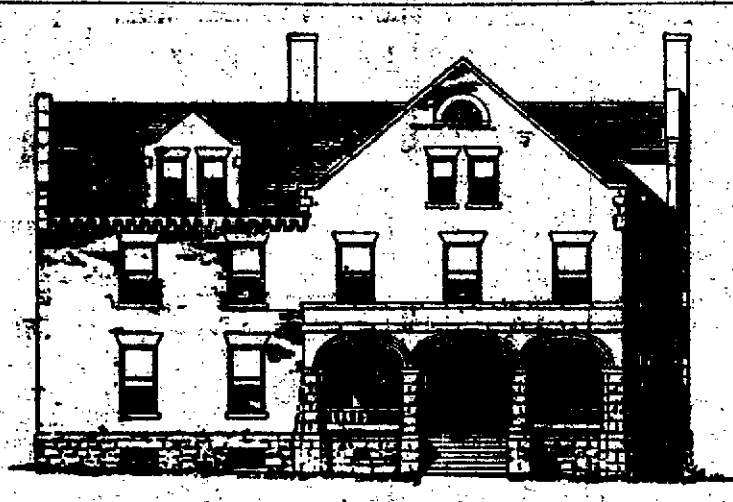

Dr. Lunderbeck has given the results of his study of the geology of Nevada in a strong paper

with the University extension mining class at Virginia, goes to the University of California as instructor in municipal engineering.

Miss Maude Wheeler, instructor in Latin and Mathematics, spent the summer at home extending her knowledge into the domain of Domestic Art.

Miss Kate Bardenwerper has been doing science work in the summer school at Berkeley and will open a new department of Domestic Arts and Science in this University. This new department receives girls direct from the eighth grammar grade, and offers a highly valuable course in the art and science of housekeeping, as well as in language, mathematics and the fine arts.

Miss Ada Edwards, instructor in Hygiene, spent the summer at Stanford, and Mrs. Layton, instructor in Vocal Music, is taking work in the Evanston Conservatory of Music.

GIRLS' COTTAGE.

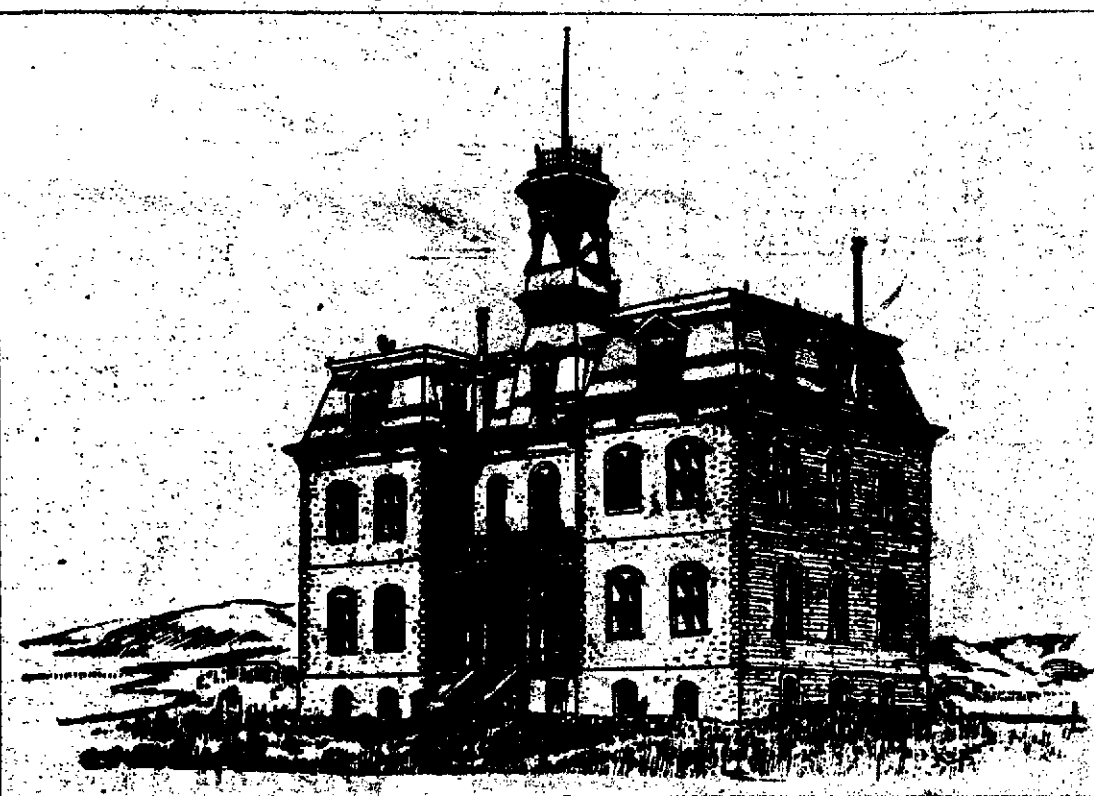

Harry H. Dexter is attending the school of library methods at the University of Wisconsin.

Mrs. Blume, mistress of the Girls' Cottage, is spending her vacation in San Francisco, visiting her daughter.

Superintendent Brown is devoting himself to the construction of the new Kindergarten building and putting the grounds in order.

Where should young men and women get their public school and college training?

In their own State. There is no better way to

MORRILL HALL.

read before the International Mining Congress at Boise City, Idaho. He is now taking a trip through Utah and Colorado with a party of geologists.

Professor Wrinkle is doing expert work in mining, and between times taking rest on his ranch in Inyo county.

Dr. Kennedy and Mr. Dotson are spending the summer in study of the large plants of Nevada and

attach young men and women to the interests of their own State, business and social, than by instilling into their minds a hearty respect for the people among whom they are born and reared, which follows when they are trained in the schools of their State.

A distinguished lawyer in San Francisco once said: "It is the duty of young men to get their

Graphite and Lead.

Within the past week a number of samples of galena and graphite have been brought in from the vicinity of Washoe City and Steamboat for assay. In the early days there were a number of locations of claims made on these deposits, but they were not worked extensively enough to prove their extent.

Bound for Tonopah.

Scott Hart and John Burke are rigging up a six horse team and two wagons. They leave for Tonopah Monday to freight between that camp and Nevada. There is big money made there in freighting supplies in and out.

PIANOS ON EASY TERMS.

And at prices to suit any one. The prices range from two hundred and twenty-five dollars up—twenty-five dollars down and the balance in ten-dollar monthly installments.

These pianos are all fully guaranteed and have the latest improved action and are the style right. No one on earth sells better pianos or better-tuned pianos, or gives more value for the money than C. J. Brookins. Brookins has lived and sold pianos in Reno for thirty years. Why not buy your piano of Professor Brookins, who knows all about pianos and has made them a great study for thirty years? Call at 224 Virginia street, C. J. Brookins' store.

THE ARTIST TAILOR.

W. Schur, the artist tailor, began business in Reno in a small way a year and a half ago and has built up a splendid trade. He is a tailor for many of the most prominent people in this city. His work always gives satisfaction. Mr. Schur makes a specialty of ladies' tailoring. He worked six years at this business in Paris. Swiss

NOW IS YOUR CHANCE.

UNIVERSITY OF NEVADA

(Continued from 1929 page.)

college training at home and afterwards if possible, to broaden their minds by means of foreign travel and study. Nevada stands on the threshold of growth in population and wealth and dignity. Her buried mineral riches have scarcely been touched. Her agricultural resources can be multiplied a thousand fold in the very rich valleys found in all parts of the State.

The University of Nevada is recognized among educators and educated people both east and west, as one of the most vigorous and best equipped of the younger universities.

The requirements for admission are not beyond the reach of any earnest boy or girl. The variety of courses is almost equal to that of the larger universities.

Think of it! After four or five years of study a boy can step forth from the University of Nevada a thoroughly equipped mining engineer, metallurgist, mechanical engineer, draughtsman, electrical engineer, civil engineer, analytical chemist, or, if he is going to enter one of the professions, he may have a broad and liberal training in languages, mathematics, history, science, law, literature, pedagogy, etc.

All the subjects above mentioned and more are open to young women; who may fit themselves for teaching or for skill in the knowledge of housewifery. Little attention has been paid to education in this noblest of all pursuits for women.

The commercial school offers excellent advantages in stenography, typewriting, bookkeeping and all other commercial subjects. Although agriculture does not receive the attention it deserves from the people of our State, the College of Agriculture offers very attractive courses in breeding and care of stock, the management of the dairy and general agriculture.

The University of Nevada has made it possible for any young man or young woman to avail himself or herself of the advantages offered. It is always better if parents, even by some sacrifice, can pay the expenses of their children while in college, in order to permit them to devote their full time to study, but it is possible for any energetic student to work his way through school by doing work that requires only a portion of his time.

TO SAVE HER CHILD

From frightful disfigurement Mrs. Nannie Gallager, of La Grange, Ga., applied Bucklen's Arnica Salve to great sores on her head and face, and writes its quick cure, exceeded all her hopes. It works wonders in Sores, Bruises, Skin Eruptions, Cuts, Burns, scalds and Blisters. 25 cents. Cure guaranteed by J. J. Hodgkinson, druggist.
